

Washington State Department of Ecology *Spot Burn Permit Application*

Spot Burn Definition

The spot burn permit is generally for areas that are ½ acre or less in size, such as:

- Small weed patches
- Spots of heavy residue
- Equipment plugs and dumps

The spot burning permit is valid for the calendar year in which it is issued and is good for a cumulative total of ten (10) acres of small spots during the year.

**This permit is not to be used for field scale burning where the burn will cover an area of over 5 acres.*

When is a Permit Required?

All burning by commercial agricultural operations requires a permit except when burning orchard prunings, natural vegetation along fence lines, irrigation and drainage ditches or natural vegetation blown by the wind. You must still notify your fire protection authority even if an air quality permit is not required. We request that you also call the burn hotline **1-800-406-5322** to make sure it is a burn day, based on air quality criteria.

What is a Commercial Agricultural Operation?

The agricultural burning regulation (**Chapter 173-430 WAC**) defines Agricultural Operation as a farmer who is practicing commercial agriculture and has filed an IRS schedule F, or has other documentation showing that the land is designated for agricultural use.

How Much Does a Permit Cost?

A fee of \$25 is required by the agricultural burning regulation (**Chapter 173-430 WAC**) for any burning under ten (10) acres. Of that fee, \$12.50 helps fund research into cleaner burning methods as well as alternatives to burning. The other \$12.50 is used by the Department of Ecology to implement and enforce the agricultural burning program.

When is Burning Allowed?

Burning is to occur during daylight hours only. In most cases, growers must call the Agricultural Burn Hotline (**1-800-406-5322**) for up-to-date local smoke ventilation conditions and burn only on declared burn days. No more than one acre may be burned per day without consulting the agricultural burn hotline or receiving special permission directly from Ecology. For spots of less than one acre, situations may come up that make it impractical to call the burn hotline. In such cases, please make every attempt to burn only when emissions will be minimized (i.e. midday). You must follow your local fire protection authority burn notification/approval procedures.

1-800-406-5322**

Permit Application Steps

1. Fill out the information requested.
2. Attach a map showing where you expect to burn. The map should include section, township and range lines and roads. Identify acres/fields where spot burning will occur. (This may mean you map your entire farm.)
3. Sign and date the permit application.
4. Mail the permit and your check for \$25 (non-refundable) to the following address:

**Department of Ecology
Agricultural Burning Account
PO Box 5128
Lacey, WA 98509-5128**

Applicant Name: _____ Phone: _____

Business Name: _____ Phone: _____

Mailing Address: _____

Burn Location (if different from mailing address): _____

City: _____ County: _____ State: _____ Zip Code: _____

Fire Department/District (# and Name) _____ County: _____

Driving Directions to Burn Location: _____

Contact Person: _____ Phone: _____

Please complete the following table with 1/4 Section(s), Section, Township and Range information which best describes your spot burn. Provide the reason for each burn, and the acreage you will designate for that purpose. Reason for burn must be completed. Also attach a map of likely spot burn location(s).

Burn	Location			Acres	Crop Type	Reason	Expected Burn Date
	1/4 Section and Section	Township	Range				
Burn #1							
Burn #2							
Burn #3							
Burn #4							
Burn #5							

1. Is the applicant the operator? Yes No

2. Is the applicant a: Business Individual

3. Is the applicant a: Lessee/Renter Owner

Applicant Statements:

Permit applicants are required to follow and obey all applicable provisions of the Washington Clean Air Act, Chapter 70.94 RCW and Chapter 173-430 WAC, Agricultural Burning. The Applicant, if granted a permit, agrees to comply with the following conditions and any additional conditions contained in a permit or other application for permit:

1. If you are demonstrating necessity to burn by use of a Best Management Practice, you must certify that you have read and understand and will follow the Best Management Practices specific to this type of burning, that you believe the proposed burning is reasonably necessary, and that no practical alternative exists.
2. You certify that you are a verified commercial agricultural operation as defined in Chapter 173-430 WAC.
3. You agree to grant the Department of Ecology (Ecology) or their duly authorized representative access to the acreage listed on any agricultural burning permit, including those private roads or access ways under your control that are required to obtain access to the listed acreage for the purpose of investigating conditions specific to any agricultural burning permit issued by the Ecology or a delegated permitting authority. To the extent reasonable and consistent with carrying out the duties of the agricultural burning permitting program, you will be notified and given the option to accompany Ecology, or their duly authorized representatives, when accessing your property.

I certify that the information provided as part of this application is true and accurate to the best of my knowledge. I have read, understand and agree to abide by the conditions above.
